MELATONIN   
**FREE**

**1:1:1 RATIO**  
THC : CBD : CBN

8mg THC / Gummy  
**INDICA**  
LIVE RESIN - CHERRY PIE

SKU: SLP101

**Drift into deep, restful sleep with our expertly formulated THC + CBN + CBD gummies, for tranquil nights and refreshed mornings.**

**1:1:1 Ratio of THC:CBN:CBD** Our sleep blend utilizes THC, CBN, "the sleep cannabinoid," and CBD to target key endocannabinoid pathways for relaxation and sleep regulation. Experience melatonin-free, rejuvenating rest and wake up refreshed and ready for your day.

**GABA + 5-HTP** By leveraging the calming effects of GABA, a crucial neurotransmitter, and 5-HTP, a serotonin precursor and mood regulator, these gummies promote relaxation and regulate sleep-wake cycles, ensuring restful nights. In a 2010 study, combining 5-HTP and GABA notably shortened sleep onset time, increased sleep duration, and enhanced sleep quality. [pubmed.ncbi.nlm.nih.gov/19417589/](https://pubmed.ncbi.nlm.nih.gov/19417589/)

**Chamomile Extract & L-theanine** Studies suggest chamomile extract, which contains apigenin, reduces sleep onset time and enhances overall sleep duration. L-theanine, found in tea leaves, increases alpha brain waves while also boosting GABA, serotonin, and dopamine production to enhance relaxation and sleep quality.
